

Template for Case Report / Case Series

Title of the article: (Avoid too short or too long title)

First Author¹, Second Author² (12 Capitalize each word)

The Corresponding author of the manuscript must be marked with an asterisk (*)

*¹(Designation, Department, College Name, State, Country Name, Email and Phone number)

²(Designation, Department, College Name, State, Country Name Email and Phone number)

General instructions:

Ayurvedic terms must be *italic* and first letter capital and if necessary, add English equivalents in closed brackets. Ex. *Sandhana* (fermentation)

Abstract: (Not more than 250 words)

The abstract should summarize the content of the paper. Try to keep the abstract below 250 words. Should be typed as single paragraph. Preferably it should be written in the past tense. It should not give any information or conclusion that is not stated in the paper. Don't cite references in the abstract. Don't use abbreviations.

Key-words: About five to six key words in alphabetical order, separated by comma.

Introduction:

(Please include why this case is unique. If it is rare, how rare, how many cases have been reported.)

Provide sufficient background information to allow readers to understand and evaluate the result of the present study. One or two paragraphs summarizing why this case is unique (may include references)

Case History:

The collected data concerning an individual, the family, and environment; it includes the medical history and any other information that may be useful in analysing and diagnosing the case or for instructional or research purposes.

Discussion:

1. Try to present the principles, relationship, and generalization shown by the results.
2. Point any exceptions or any lack of correlations and define unsettled points.
3. Show how your results and interpretations agree (or contrast) with previous published work.
4. Discuss the theoretical implications of your work as well as any possible practical applications.

Conclusion:

The major findings of the work highlighting its importance, relevance and their usefulness of the study shall be summarized. The conclusions of this study must discuss a short summary and further scope in the field should describe in this context.

Acknowledgement: (If any)

Acknowledge any significant technical help and assistance that you received from any individual.

Acknowledge your funding agency or the agency giving you grants or fellowships.

Tables

Tables: Tables must be inserted within the text. Tables must be named and numbered as Table no. 1, Table no. 2 etc., with a proper self explanatory Legend.

Figures

Figures must be on separate pages in JPEG format but not inserted within the text and bear a brief title in lower case bold face letters below the figure. Photographs, drawings, diagrams and charts are to be numbered in one consecutive series of the numerals in the order in which they are cited in the text and abbreviated as Fig. 1, Fig. 2 etc., Photos or drawings must have a good contrast of dark and light. Legends of figures should be brief, but complete and self explanatory so that the reader can easily understand the results presented in the figure.
